PE lessons

Our vision is for every child to experience high quality teaching and learning through the PE curriculum. We aim to ensure that they are active, engaged and challenged in their learning, showing progression, as well as developing leadership qualities and coaching skills.

Extra-Curricular Clubs and Community Club Links

We provide a wide-range of sports clubs accessible for all children. Participation rates are high and clubs are very popular. We have strong community links with Sama Karate, Saffrons Hockey Club, Eastbourne Town Football Club and Tennis in the Park.

We have well-run, school teams (often B and C teams to maximize participation) in all the major sports which enter local, regional and national competitions with much success.

Boys Football
